

NO ADDITIONAL SUPPORT NEEDED

Most children reach their full potential through the care of their families and communities. Universal services are provided to all children and their families through community networks such as schools, primary healthcare, family and youth hubs, leisure services, voluntary and community groups.

EARLY SUPPORT

Early Support provides help when a need is identified at any point in a child's life. It is not a service specific to one organisation, but rather a collaborative approach across all agencies and partners to work with children and families to prevent the need for statutory intervention. Across the Wakefield District, every person working or volunteering with children and families, regardless of organisation, status or position, has a responsibility to support the delivery of early support and where needed, ensure a family has access to appropriate services.

REQUIRES IMMEDIATE SAFEGUARDING SUPPORT

Some children may require an immediate referral to the Integrated Front Door (IFD) / Multi-Agency Safeguarding Hub (MASH) for an assessment to be completed to better understand their needs.

REQUIRES MORE SUPPORT

Some children and families will have more acute needs and require support for these to be met.

Typically, this support is for children who are unlikely to reach or maintain a satisfactory level of mental or physical health or development. Children's needs are more complex, and they are at risk of social or educational exclusion. In addition, their welfare, social or educational development is being impaired without the provision of Family Help.
