Testimonial from Cohort 1:

“I read through about 20 different
SMHL training programmes the
reason I was attracted to this was
because it was local to Wakefield and
with it being a face to face
programme I felt that it was more
personal. I was so pleased I chose
this course the trainers have fantastic
knowledge and experience with
mental health both in a school and
out of school.

The support we have been given has
been amazing. I would definitely
recommend this course”
