

# Foster Hub Home

**Building on from the recent success of the Mainstream Children's Homes, a new innovative home has been developed in partnership with the Fostering team**

Due to the rise in children in care and a national shortage of foster carers for older children, more children are being placed into children's homes (as young as 5 years old right through to 15).

A DfE funding bid for innovation was submitted and successful to support the transformation. Two children, aged between 10-15, will be identified in external children's homes where we believe we can successfully support them into foster care.

The children will move to the Foster Hub Home for a period of 3-6 months where interventions / programmes of work will take place in partnership with the matched foster carers. Children will move to their new foster placement and remain linked to the Foster Hub Home for the duration of the placement.
