

NEW FOR 2026: EYFS SECTION AT THE WSCP ONLINE DSL FORUM

Starting 6th October 2026, the WSCP Online DSL Forum will include a dedicated EYFS safeguarding section from 4:45pm

What's new?

This new EYFS section has been introduced specifically for school-based providers and will provide:

- ✓ EYFS safeguarding updates
- ✓ Information relevant to early years settings within schools
- ✓ Opportunities to hear from EYFS safeguarding professionals and partner organisations
- ✓ Future training and development opportunities
- ✓ A chance to influence future forum content

Your Voice Matters

The first session will be used to gather your ideas and feedback about what would be most useful going forward.

Tell us what you would like to see, such as:

- EYFS-specific safeguarding training
- Input from specialist organisations
- Emerging safeguarding issues
- Best practice examples
- Networking and shared learning opportunities

Why Are We Making This Change?

Schools that do not have EYFS provision can leave the forum at 4:45pm, allowing the final section to focus on the needs and priorities of school-based EYFS providers.
